# REIGN OVER THE CITY

The new Peugeot Metropolis is coming to town!

Discover its unprecedented feline design and its new luminous signatures in the form of incisors at the front and flaming red claws at the back.

Powerful and safe, this 3-wheel scooter, wholly designed and manufactured in France, is equipped with latest-generation technology borrowed from the world of cars such as hands-free ignition and automatic warnings.

It now has i-Connect: a connectivity function perfectly integrated into the dashboard, with a head-up view.

**The moment has come for you to reign over the city.**

Smart Key for hands-free ignition

ABS-SBC braking<sup>(1)</sup>

Peugeot PowerMotion® 400cc engine manufactured in France

## DESIGN

With its luminous incisors at the front and its scarlet claws at the back, Peugeot Metropolis offers Peugeot's thoroughbred and iconic design to the minutest detail, giving it the look of a lion asking only to be released.

## USEFUL TECHNOLOGIES

With its two Smart Keys for hands-free ignition and its mobile connectivity, i-Connect<sup>(2)</sup> with integrated navigation and notifications, this urban lion is now the most technologically advanced scooter on the market. It's awaiting only you for a true connected epic.

## SAFETY

Reign over the city in complete safety while riding the new Peugeot Metropolis. Make each journey a controlled experience with the ABS-SBC system<sup>(1)</sup> enabling simultaneous front/rear braking. Thanks to the raised dashboard, you can easily read ride-related information while constantly maintaining a good view of the road. And discover the comfort of anti-tilting technology which provides perfect stability both when parking and when stopping at traffic lights, with no need to put your foot on the ground.

## PERFORMANCE

Fully designed in France by our engineers, the new PowerMotion® 400CC Euro 5 engine generates 35.6 bhp with torque of 38.1 Nm. This new 3-wheeler provides an extremely comfortable ride. Its increased torque at low speeds and its LFE technology result in a comfortable ride, less noisy and with better economy.

(1) Synchro Braking Concept: Peugeot Motorcycles combined braking allows you to use the left lever to brake both wheels simultaneously with good distribution. (2) Except Active finish.

## TECHNICAL DATA

### PEUGEOT POWERMOTION® 400 ENGINE

Engine displacement (bore x stroke)	399 cc (84 x 72 mm)
Engine type	Peugeot 400i LFE
Standard	Euro 5
Cooling	Liquid
Power supply	Electronic injection
Max power	26.2 kW (35.6 bhp) at 7250 rpm Max torque
Max torque	38,1 Nm at 5750 rpm

### DIMENSIONS

L x W x H (mm)	2152 x 775 x 1450
Wheelbase (mm)	1500
Seat height (mm)	780
Empty weight (kg)	271
Petrol tank (L)	13,5
Suspension	Monotube damper Front hydraulic twin-tube damper Rear adjustable hydraulics
Tyres	Front=110/70-13 Rear=140/70-14
Braking (disc)	Front= 2 x 230 mm Ø Rear= 240 mm Ø
Under-seat storage & Tailboard	1 integrated or adjustable helmet + 1 jet helmet or laptop computer

### Take control with i-Connect.

Comfort and connectivity will be an integral part of your riding experience.

#### Integrated navigation.

With the GPS display of the colour TFT screen, find all the information you need for your journey without taking your eyes off the road. Also get the benefit of rapid access to text messages and calls by connecting your smartphone.

#### Compact handlebars and head-up riding.

Adopt a relaxed and comfortable riding position when exploring the urban jungle by manoeuvring more easily with the compact handlebars and thanks to the head-up dashboard which allows you to read information relating to the ride more safely and with a better view of the road.

# THE BEST TECHNOLOGY FOR GREATER COMFORT AND SAFETY

- Peugeot PowerMotion® 400cc engine, high torque at low speeds
- i-Connect
- Dashboard with 5-inch colour TFT screen
- Full-LED lighting (including LED daytime lights)
- Hands-free ignition with Smart Key
- ABS + SBC® BRAKING <sup>(1)</sup>
- Adjustable anti-skid TCS<sup>(2)</sup>
- Automatic warnings in the event of emergency braking
- Electric parking brake
- Height-adjustable windscreen
- Flat floor
- Adjustable driver backrest

(1) Synchro Braking Concept: Peugeot Motorcycles combined braking allows you to use the left lever to brake both wheels simultaneously with good distribution.

(2) Traction Control System.

# A WHOLE RANGE OF ACCESSORIES<sup>(1)</sup>

For even more comfort, we have designed for you a whole range of additional equipment. Our selection is below. More equipment is available on our website.

Top case 47L plain black  
**A05890N**

Top case 47L matched to vehicle colour  
**A05892XX**

Stainless steel floor assembly  
**A08009**

Top case support  
**A08010**

Rider apron<sup>(2)</sup>  
**A08079**

## AND ALSO:

Smartphone support	<b>A08004</b>
METROPOLIS backrest kit - Maximum comfort	<b>A08070N</b>
Handlebar muffs	<b>A08106</b>
Seat cover	<b>A08002</b>
Double-U anti-theft device by Top Block	<b>A08012</b>
Vehicle cover	<b>A08003</b>
Passenger backrest Top Case 47L	<b>A05893</b>
